

Project Design Phase-I
Proposed Solution Template

Date	10 October 2022
Team ID	PNT2022TMID15429
Project Name	University Admit Eligibility Predictor
Maximum Marks	2 Marks

Proposed Solution:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	The failure in the admission tests makes an examinee depressed. Many factors are responsible for the failure or success in an admission test.
2.	Idea / Solution description	A machine learning based system built on a linear regression model using the data set available for predicting chances of admissions for students hoping to pursue their post graduate studies abroad.
3.	Novelty / Uniqueness	This project provides the best accuracy for predicting the admissions.
4.	Social Impact / Customer Satisfaction	It can solve almost all the problems statement which we analyze. By providing the perfect data Visuals it can create a large impact in admission of college and university.
5.	Scalability of the Solution	This project can be improved by giving suggestion for admission and ideas for university admissions.
